

GLOBAL AG SMARTE
TECHNOLOGIES, INC

IMPROVES STRESS MITIGATION

Mossy Oak Nativ Nurseries Study

Objective

Evaluate the response of plants to the smarteroot technology.

Overview

SmarteRoot is used to treat irrigation water to increase water and nutrient absorption in plants.

Trial Details

Crop : Multiple Species of Plants
Years: 2017
Data Source: Green Houses
Cropping Conditions: Trials conformed to Mossy Oak practices.

Summary

Root growth was much more aggressive in the portions of the nursery that were treated. Deficiencies that are common with acid loving species were non-existent in the treated areas. Treated seedlings had thicker stems and larger dormant buds. Best growth and survival in our ten years of business.
