

GLOBAL AG SMARTE
TECHNOLOGIES, INC

IMPROVES STRESS MITIGATION

Bent Grass Nursery Green Study

Objective

Evaluate the response of bent grass to the smarteroot technology.

Overview

SmarteRoot is used to treat irrigation water to increase water and nutrient absorption in Bent Grass Nursery Green.

Trial Details

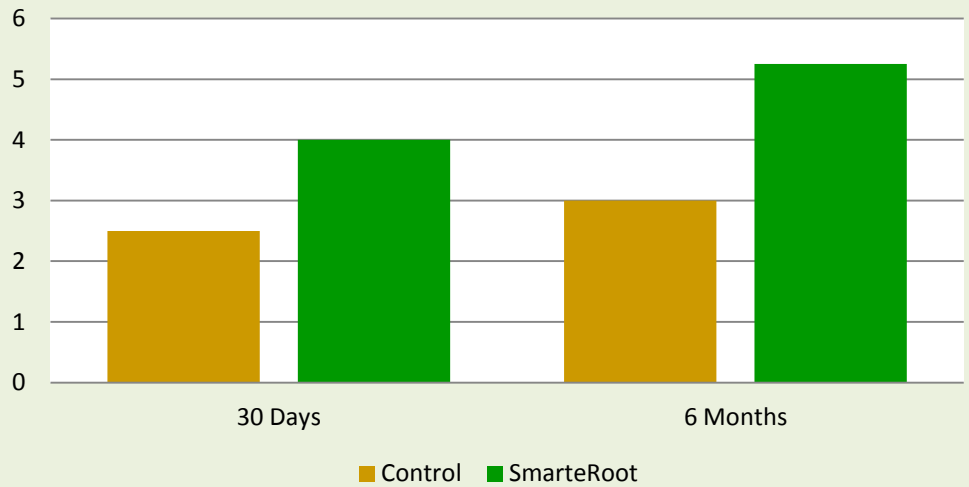

Crop : Bent Grass Nursery Green
Years: 2007
Data Source: Field studies
Cropping Conditions: Trials conformed to local cropping practices.

Summary

Across the testing samples, SmarteRoot increased the root depth and root mass.

SmarteRoot improved the nursery grass overall health, showing greener sod, better uniformity and decreased sod loss.
