

GLOBAL AG SMARTE
TECHNOLOGIES, INC

IMPROVES STRESS MITIGATION

Mossy Oak Putting Green Study

Objective

Evaluate the response of a putting green to the smarteroot technology.

Overview

SmarteRoot is used to treat irrigation water to increase water and nutrient absorption in grass.

Trial Details

Crop : Champion Bermuda Grass
Years: 2017
Data Source: Mossy Oak Putting Green
Cropping Conditions: Trials conformed to Mossy Oak/Old Waverly practices.

Summary

After 5 months of Smarteroot treatment, soil plugs were taken to evaluate the difference in root length. The control plug had a root length of 2.75" and the SmarteRoot plug had a root length of 6". The putting green after treatment had better uniformity of growth and color.
